Another Slump, Dropping Two to Three Cents.

SENTIMENT IS VERY BEARISH

OMAHA, June 2, 1913. Wheat took another alump today, soling from Se to Se under yesterday's cices. The sails were extremely light, tere being but two cars of hard winter and one care of durum wheat reported

Corn receipts were very light and there was very little damand shown. White corn sold a fraction above the yellow, while the yellow brought a %c advance over the mixed. The market was unchanged to %c higher.

The sales of oats were unimportant and the market was quoted %c higher to be lower.

Rye and barley remained nominally Eve and barley remained nominally unchanged.
Sentiment among the grain traders is bearish, especially on wheat. They say the country looks too good and fresh for traders who were out over the holidays. They look for temporary railles from time to time, however, due to pit conditions, but do not expect them to hold. Clearances were: Wheat and flour, equal to 312,000 bushles; corn, 225,000 bushles; oats, 1.000 bushles.
Liverpool close: Wheat, and oats not quoted.

Primary wheat receipts were 207,000 bushels and shipments 569,000 bushels, against receipts of 430,000 bushels and shipments of 719,000 bushels last year.

Primary corn recipts wer 445,000 bushels and shipments 471,000 bushels, against receipts of 1,945,000 bushels and ahipments of 624,000 bushels last year.

Primary corn receipts were 522,000 bush. Primary oats receipts were 522,000 bushels and shipments 451,000 bushels, against receipts of 1,145,000 bushels and shipments of 765,000 bushels last year.

many and Mexico. The audience granted by President Wilson to the German ambassador and the emphatic declarations to Mexico's warring leaders were almost the only definite developments of an otherwise uneventful session.

The financial community was clearly inclined to regard the visit of the German ambassador to the White House as a factor of favorable import. The entire list, including the international group advanced smartly during the morning on a volume of business in excess of the preceding day. War shares and other specialties, as well as coppers, participated in the rise, which lost much of its enthusiasm later. Trading slackened to a marked degree in the afternoon and some gains were reduced to fractions at the duli close.

Total sales of stocks amounted to 250,-006 shares.

Total sales of stocks amounted to 20, 100 shares.

Cables stating that the Bank of Engliand had released \$1.375,000 of its gold and had sold \$10,000,000 of its foreign gold coin doubtless accounted for the steadiness of local exchange on Landon, but the record for francs was again lowered, remittances on Paris being quoted at \$45, against the previous price of \$435. Italian exchange was a trifle firmer, but the volume of bills on Rome was a further reflection of afferings by our bankers and manufacturers against purchase of war supplies.
